

Are you guys kidding me? You want to block satellite radio users from receiving traffic, weather and other report signals !Don't go challenging our constitutionally amended rights. The users of satellite radio are paying for a wonderful service and its options to receive information for personal and professional enjoyment as is our right to do as Americans. Please tell the "powers that be" to use their influence in constructive manners to improve our quality of life. Don't even waste their time using their powers to limit, degregrate and stifle some of the greatest American rights of speech, writing and most of all competition. A liittle competition is good for all of us. Get to work on important issues !
